A GESTS wanted in every county in this and adjoining A States to sell the above new and improved CORN AND COB MILL. To all such, a rare chance to make money will be effered. Exclusive State and County privile, es will be disposed of on unusually fair terms, by FARMERS AND STOCK RAISERS.

of r you a Can and Cob Mill unsurpassed in the inventions it is the very Mill which every Farmer and Stock Samer should have; it will crush from 8 to 10 tushels Corn and Cob per hour, with one horse, is easily fitted up and managed, weighs \$10 ibs., and as all contact of the grinding surfaces is prevented, will last any former an or-dinary incline. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill. Who is it that wants

A MILL ON TRIAL for one month, and of it don't give complete satisfaction, to return it? If there be any man thus disposed, let him now speak. Satisfa to his warranted in every case, or the non-ey will be retanded. This Crusher can be attached to horse, water or attain power, which renders it the most convenient Mill south of Mason's and Dixon's line. All other Crushers now in the south require too much power, or will some wone out. According to
THE LAWS OF NATURE

Corn and Cob Mill which admits of a lateral or wabbling motion, will, necessarily, some wour out; all other Crushers are attenuable to this grand objection, and the Proprietors dare not dispute it. In the construction of "Young America," I have gained power, and I dely contradiction; I have leasened friction, and I challenge one word to the centra-ry; I have prevented a wabbling lateral motion, and all are compelled to acknowledge it; therefore, I assert that it is fur superior many other Mill. I am now selling this Ten FIFTY DOLLARS.

And any one wanting a "good thing," is earnestly requested to examine the true merits and principles of this Bill, and order from the Proprietor or Agents.

A liberal discount made to dealers.

#### RAYMOND & CO'S. QUICK CURE OF PAIN!

FOR the instant relief of Pain, and the prompt and certain cure of various Local Inflammations, and of Spasmodic and Nervous Diseases in general, this Medicine now stands pre-eminent, and is rapidly superceding, whereever it is known, the numerous embrocations, liniments, and pain killers, now before the public Composed of eight different articles of the Materia Medica, it combines, at once, the active properties of a pow-erful Nervine, Anti-st-asmodic, Expectorant, Carminative, Antacid, Alterative, Diaphoretic, Diffusive Stimulant, and Counter Irritant. Possessing, as it does the above-counted properties in an eminent degree, its efficiency and power, as a re-edy, as, also, its adaptation to a great variety of

diseases, is at once apparent.

A long and extensive trial of this preparation, in private practice, in a great variety of painful affections, and the almost invariable success attending its use, has impressed us with the belief that, as a remedy for the immediate relief of pain, and the speedy cure of the diseases for which it is renommended, it has no equal in the world. Prompt and powerful in its operation, it instantly relieves pain, whether external or internal, quiets nervous irritation, whether local or constitutional; quiets nervous irritation, whether local or constitutional; quiets nervous irritation, whether local or constitutional; quietly controls the most violent spams; and speedly solutions inflammations.

SCOTT'S LITTLE GIANT CORN AND COB MILL.
THERE are features connected with this Mill worthy of consideration and close examination on the part of those wishing to purchase a Feet Mill. those wishing to purchase a Feet Mill.

Its mechanical construction and anaptation to the purposes designed, to crush and grind ear corn. Its great capacity, while doing an immense work with extraordinary tase, its durability is anapty provided for. The complete and entire partableness of the hittle Giant, readering its greater convenience for plantation and farm use impossible. It requires no mechanical and or bill of expense to juit up, any farm hand or servant can put up and set one unding in half as hours time. The convenience with which the sweep may be applied to run horizontal—as is most usual—or over head, and the mill may be easily attached where steam or water is used. The power it takes.

requiring one and two horses. The quantity and quality of product, is to so bushels of good first meal per hour, according to the degree of lineness ground, and the size mill. It is the cheepest mill, all things considered, there a before the public. Another thing connected with the Little Giant, as a patent, and worthy of note, is the fact that there has been no Patent hight specularing or huckstering about the coun-try, as is usual with the thousand bunging make shift in

by selling or paloring off the patent right upon the credu-ous—then the machine to be abandoned by all parties as a number, on the other hand the Patentee and Proprietors of the Lattle Giant Mills, believing that they can—and determined that they will supply the Agriculturalists and shock raisers of our country with a superior Mill, are permanently obgaged in the business and have over one bundred thousand dollars invested in the manufacture of these mills, in the East, west and South, some of these establishments employing 60 mentsolety in this business. So highly are these mills appreciated, that four thousand have ocentsold within the past eighteen months, and the heaviest and he most extensive Manufacturers of Agricultural implements in the United States have eagerly sought an interestin their manufacture and also est in their manufacture and sale.

No implement has been more thoroughly tested, no one of the kind has received so numerous and high testimonials. of the kind has received so numerous and high vestion made from Mechanics' Institutes and Agricultural Associations, and none by reason of substantial, practical under and ment have more fairly ground their way into every day use and popular favor than Scott's Little Giant Corn and ob M.R.
